ELITE OPS™ CAMERA

PROPERTY OF USA MILITARY

THE WORLD'S FIRST
MILITARY-OPTIMIZED HELMET CAMERA

MOHOC
ELITE OPS™ CAMERA

MOHOC believes the world's toughest warriors deserve elite, custom built gear to guarantee mission success.

Conventional sport cameras are not designed for the harsh conditions of military operations. Their awkward shape and high profile hinder movement, create dangerous snag hazards, fail under the rigors of combat, and are difficult to operate while wearing gloves.

The tactically designed MOHOC® Elite Ops™ Camera revolutionizes form-factor, durability, and user interface. It is the world's first military-optimized camera with revolutionary helmet contour. It is mission ready and delivers the smallest, lightest, simplest, and toughest ruggedized camera solution available.
